

# JONAH ENERGY

is a proven environmental leader, continuously improving in all phases of its operations through the implementation of new technologies, demonstrated accountability and sustainability in the protection of air, land, water and wildlife.

## 117

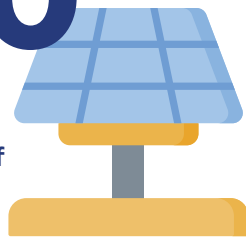

Strong environmental performance earned Jonah a TrustWell™ gold rating of 117.

A methane intensity rate of 0.17% below the industry average benchmark of 0.62%; Jonah is the first producer in the nation to achieve TrustWell's Verified Attribute for Low-Methane.

## 4,000

Jonah uses solar power on over 4,000 field units, generating over 2.2MW of energy, enough to power 450 homes.

Jonah consistently exceeds federal and state regs for VOC emissions.

Jonah has never used water sources from rivers or lakes.

Reduced freshwater consumption 55% over the past four years.

## 80%

The only company in the nation to fully reclaim on BLM land, with 80% of disturbed acreage currently under reclamation.
